

Harpswell Recreation & Community Services Presents:

AGE 18+

OUTDOOR PICKLEBALL

This program is for new-to-pickleball players, as well as individuals looking to improve their skills. Join us to learn the basics of the game and practice skills over four sessions. This will be a welcoming atmosphere where camaraderie and learning go hand in hand!

Pickleball is a relatively low impact sport and in addition to helping you become or stay active, it can help with hand-eye coordination and balance. There's guaranteed to be some laughs along the way, too!
